

Vibrant, professional,  
experienced and fun  
instructors

“Margie made  
computers so  
much fun!”

Margie Dietz,  
PhD has taught computer science at Duke,  
presented at the local schools and museums,  
and trained Triangle scuba divers for 15 years.

“Mary has  
tremendous  
enthusiasm  
and patience!”

Mary Mace, PhD, a NC native, volunteers in  
the Orange County public schools, tutors  
children of all ages in reading and math. She  
participated in the NC Teach program at  
UNC.

Mary is also a pianist. She plays every  
Wednesday at Charles House for their Song  
Circle program.

Need computer instruction, but don't have the time for a general course?

Why waste time on stuff you don't need! We offer professional, affordable classes on topics tailored to suit your particular needs.

Our most popular topics have been:

- Microsoft Word in a small office environment
- Build your-own low-cost website for family or small business that you can maintain yourself.

Our customers are across the board – small business offices, families, clubs, & retirement communities.

Hands-on, on-site instruction with our portable classroom

How often has someone showed you how to do something on the computer, but later you couldn't repeat it by yourself?

Hands-on learning is the best!  
Especially in your own home or office!

We can teach using your own computers, or we can bring a fully equipped classroom and computer lab to you.

- Six 15" laptops accommodating two students each
- Video projector and screen for presenting ideas and leading exercises
- Large, light-weight whiteboards
- 20" external flat screen displays to supplement laptop screens where necessary

Don't have room on-site? We can provide cost-free, classroom space.

We have broad expertise in common software and topics
